

# IT PARTNER SERVICES

## Your partner every step of the way.

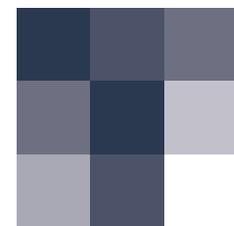

SOFTWARE PRODUCTS OFFERED WITH THE BEST POSSIBLE SUPPORT, SERVICE, TRAINING AND CONSULTANCY.

We specialize in automation software for the port logistics and cruise sector. Teamed up with our customers we can do something great for the industry. "Together we are strong" may sound like a cliché, but this is what we firmly believe in.

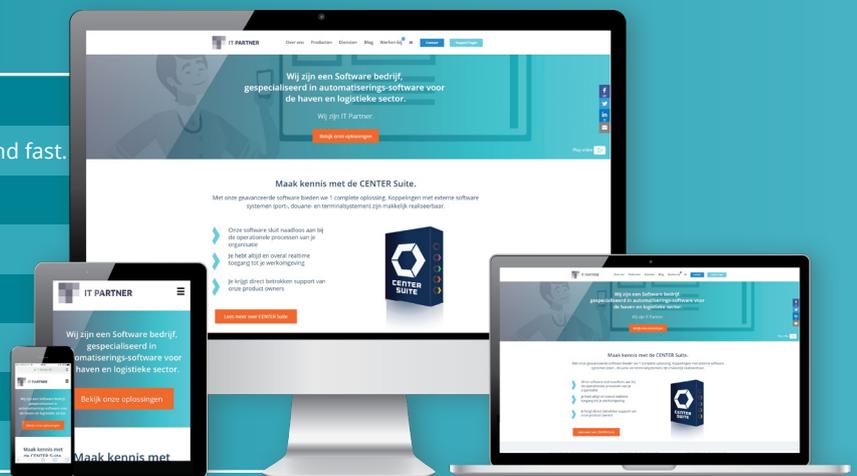

Our mission is to aim for perfection and we want to make everything happen as reliably, efficiently and effectively as possible. All in a relaxed and pleasant cooperation.

We strive to be more than just a software supplier, we want to be a partner to our customers.

IT PARTNER

# IT PARTNER SERVICES

## Your partner every step of the way.

“Our mission is to help you achieve yours.”

### SOFTWARE PRODUCTS.

We offer software products that service the port logistics sector and cruise industry. Our products are innovative, reliable and designed to optimize organizational workflow and elevate performance potential.

All software products work flawlessly together as well as on their own. Interfacing with existing IT environment is something we specialize in, so you only have to implement what you need.

### CONSULTANCY.

The perfect fit between your IT environment and business processes is what our consultancy department stands for.

This requires expertise, analytical skills and the ability to listen.

All our consultants have extensive experience in the logistics industry, the IT Sector and have well developed social skills. They are more than happy to team up with you and find out what needs to be done to create that perfect fit.

### SUPPORT.

We offer professional support, with a personal feel. Our mission is to be a partner every step of the way, this means we are there for our you after the implementation of you project.

Our support staff is up to date with the ins and outs of all our projects and is committed to help professionally, accurately and fast.

### TRAINING.

To get started with our software products quickly, and make the transition run smoothly, we offer training modules tailored to your specific needs. Training sessions can be held at your location or at one of our office facilities.

We also offer ‘train the trainer’- concepts.

### COMPLETE WEB SOLUTION.

In addition to our full range of software products, we also design and build corporate websites.

We can offer you one completely integrated platform with a consisted look-and-feel, combined with optimal ease of use.

## CENTER PRODUCTS MANAGE CRUISE, PORT, AND TERMINAL RELATED WORKFLOWS.

Our **CENTER** product line consists of seven software products, that manage: “Terminal, Port, Freight-forwarding, and Agencies” related activities and workflows. The products can be used as standalone applications, a combination of **CENTER** products is also possible.

For more information about the **CENTER** products, please take a look at our brochures or visit our website at [www.itpartner.nl](http://www.itpartner.nl).

**CENTER** products are designed, developed and supported by IT Partner B.V.
